UX/UI Designer

DTT

JAN 2018 - JUN 2019

Amsterdam, The Netherlands

G4S — *Design an app to provide cash solutions to the world's leading global, integrated security company.*

I created high-fidelity concepts and worked with developers to drive polished designs to final implementation.

EFDN — *Design a mobile interface for European Football Development Network.*

I designed the user interface and user experience for the European Football Network mobile app that promotes football's connecting power and uses it as an instrument for social development.

AWH — *Prototyping a mobile interface for report service.*

Deliver top-bottom design for the mobile app from conception to a polished interface.

ADC — *Create an internal workflow model for DTT.*

I worked closely with the design team members to establish a workflow model to improve UI designers' tasks to create a workable app from scratch.
